PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of commercial experience building web and mobile applications with React, React Native, and TypeScript. Experienced in frontend architecture, white-label UI systems, component-driven development with Storybook, and Playwright E2E automation.

EXPERIENCE

Senior Frontend Developer | GB2B - GamingB2B

Oct 2026 - Present | Warsaw, Poland

- Developing iGaming platform apps using React (Web) and React Native (iOS, Android).

Frontend Software Engineer | Solbeg_

Jun 2021 - Jul 2026 | Warsaw, Poland

Delivered React and React Native applications across betting, insurance, and logistics projects, contributing to frontend architecture, reusable UI systems, and automated testing.

- Introduced code review guidelines and frontend best practices adopted team-wide.

Horse Racing Betting App - Cross-Platform

- Built a React Native application from scratch and independently designed its UI Kit with white-label configuration and dark/light themes.
- Developed reusable components with Storybook for cross-platform delivery on iOS, Android, and Web via Expo.

Betting Services Admin Panel - Web

- Implemented admin features for betting services and adapted existing React components for a planned UI redesign.

Horse Racing Betting App - Cordova (iOS) & Web | SDET

- Developed React UI and integrated iOS-specific Cordova plugins for a betting app supporting Web, iOS, and 3+ white-label brands.
- Rebuilt Playwright E2E automation from scratch to cover critical betting and user flows.

Insurance Agent Portal - Web

- Built reusable React components and feature modules in a micro-frontend architecture, integrating REST APIs and Redux state management.

Transport & Logistics App

- Developed reusable UI components for two React Native applications used by logistics managers and drivers.

EXPERIENCE (CONTINUED)

Frontend Engineer | Freelance / Self-Employed

Apr 2020 - Dec 2021 (part-time) | Remote

Delivered a React application with Google Maps integration and a static Next.js site.

- Built interactive maps and location-based functionality with the Google Maps API.
- Defined API contracts with backend developers and integrated REST endpoints.
- Integrated cryptocurrency transactions into the application, connecting the payment flows in the UI to backend services.

Frontend Engineer | IterTech Innovations

Sep 2019 - Jun 2021 | Minsk, Belarus

Developed an enterprise ERP frontend and contributed to a Next.js sub-project.

- Migrated class-based React components to hooks and functional components; built reusable UI and helped introduce Storybook.
- Wrote unit tests with Jest and Enzyme and worked on bundle size, rendering, and asset optimization.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React, React Native (Expo SDK), Next.js (SSR/SSG/ISR)

State & Data: Redux Toolkit, MobX, Zustand, TanStack React Query, REST, WebSockets, React Hook Form, Zod

UI & Styling: Storybook, Material UI, Tailwind CSS, SCSS, CSS Modules

Testing: Jest, React Testing Library, Playwright, Vitest

Build & Tooling: Git, Vite, Webpack, ESLint, Prettier, Monorepo (Turborepo, Nx), CI/CD (GitHub Actions, CircleCI, Bitbucket)

Practices: Component-Driven Development, Feature-Sliced Design, Micro-frontends

PERSONAL PROJECT

Mentara | AI Interview Practice | In development

mentara-ai-landing.web.app

- Building the Web, iOS, and Android client with Expo/React Native and a Fastify backend.
- Orchestrating 3 LLM agents and streaming interview responses over WebSockets.
- Sharing TypeScript and Zod contracts across REST/WebSocket APIs and the client.

EDUCATION & TRAINING

Bachelor of Engineering in Software Engineering
ISEI BSU | Minsk, Belarus | Jul 2020

IT Academy, Minsk | 2018-2019
React / Angular / TypeScript / JavaScript

LANGUAGES

English: B2 | Russian: Native
